Introduction

Welcome to Creating a Secret Facebook Group Training!

This instructional program is designed to introduce secondary and higher education professionals to Facebook’s group pages then guide them in creating their own Facebook group page. It is important to be aware and understand that although Facebook is a popular public website, of instant sharing, it is not uncommon for educators to find reluctance to use Facebook group pages for serious course work.

As you begin the session please ask participants to scan their booklet then read pages 1-6 before the session begins. During this time, read over the next several pages and become familiar with this guide.

During the session it is recommended that you share any information that you feel will help participants have a better understanding of the usefulness and purpose of the facebook group pages.

This instructor guide and the participant handbook have virtually identical visual aids and screen shots.

 [NOTE: BOOKLET AND THIS GUIDE PAGE NUMBERS DIFFER AFTER PAGE 7. This will be indicated on the same topic page at the top right corner in a RED box]

Your guide will cue you to direct participant to specific pages within their booklet.

What is included within this guide & the participant booklets?

- Visual aids that display how to set up group pages within the Facebook website
- Screen-shots with step by step instructions
- Directional arrows that show navigational paths
- (Instructor guide only) hints and tips to assist with frequently asked questions

Rationale

In 2009 Facebook launched a new set of pages within their portal for private groups. These semi-customizable group pages can be set to share content within a variant of models; Open, Closed or Secret.

Highlights about a Facebook Private or Secret group page:

- Administrators are in control of every post
- Administrator can customize the group settings and control post visibility and determine whether posts will be used or viewed by the group
- Secret groups are pages where only invited members can share

- Participants who have grown up using computers their entire life and are naturally comfortable with technology will be motivated to communicate, engage, learn, share, and do research within this platform

- The Facebook.com Secret page can provide a place where all participants can synchronously view and comment on posts. The Facebook group page is more like a “study group” in which instructors and participants participate

 Top 6 reasons to use Secret Facebook group (this is NOT in the Participant Booklet):

1. User- ease of use
2. Teach awareness of selective online sharing
3. Motivate participants/ faculty to work more together, while they think they are playing
4. Eliminate data storage issues
5. Use of tools that are relevant with what is happening in the real world
6. Improve written communication

Intended Users

The intended users for this program are adults, Secondary and Community College educators, who have a need for remote communication to share content (images, videos, Live Chat, link), projects, club activities and calendar dates, group agendas, voting, within a user-friendly website portal. This format for sharing can provide district-wide or national collaboration for educators and colleagues to become familiar, aware, and at ease using this user-friendly communication portal.

Educators have the need for web-based communication and most if not all are familiar with facebook.com. With a more complete understanding of the use of and purpose for social media platforms, generational gaps may be reduced and better communication and higher levels of respectful participant-teacher relationships may be built.

More information is available by opening the linked pdf document below that explains the usefulness and purpose of facebook group pages from the Facebook educator’s standpoint. (this pdf link will be added to facebook group by Instructional Designer)

[Facebook for Educators & Community Leaders](#)

Instructional Objectives

1: The participant will login to Facebook to create a private “Facebook group” page for a specific target group, club, organization, etc. Locating the “Group” tab on the participant’s Home page and select “Create Group”

2: The participant will be given a link to the privacy settings [Open, Closed, Secret] of the Facebook group. Define the group privacy options for your group [a link will be given]

3: Citing the rules of Facebook “joining a group” the participants select Facebook friends and “invite” non-Facebook friends to the new group [list provided]

4: The participant will identify characteristics of the group and write a description of the new group on the new group home page [sample text provided]. Also, locate the “About” and set “Tags” links on the new group homepage and compose descriptions of the new group. [sample text provided]

5: Construct a New Group Event. Compose an upcoming event and invite all new Facebook group members.

Length

The training will be delivered in a computer lab via a live instructor. The estimated time required to complete the session of the training is approximately one and one half hours (1 1/2 hr).

 As the instructor, you are encouraged to make adjustments to the agenda in order to accommodate the learning of the participants.

Posttest

The post test will require students to demonstrate mastery of 5 objectives by sending the Instructional Designer an invitation to join their New Facebook group page.

Email address: sknab@asu.edu

As the training proceeds, take a moment to observe the participants, then rate the participants level of completion. This is not a judgment about the quality of the performance. The instructor will enter “yes” if the step has been +50% completed. The instructor will enter “no” if the step was less than 50% completed. Please return this evaluation page to Instructional Designer at the end of the training session.

TASK COMPLETE	+50% = Yes				
	-50% = No				
	S1	S2	S3	S4	S5
Created new group page					
Defined group page settings					
Invited “friends to join group					
Under “About” defined new group					
Set “Tags” on new group					
Composed New Event					
Invite me: @asu.edu to join the group					

- To proceed with the instructions, briefly explain
- that you will be using the booklet and guiding them through instructions
 - together you will review visual screen shots found in the booklet along with step by step instructions
 - To help the training run more smoothly participants will be given: Scripts [sample text] and sample email addresses

The estimated time to complete the training is one hour and thirty minutes

To Start:

To begin participants will need:

A. a live Internet connection

(IP set-up will be the responsibility of the Instructional Designer)

B. Facebook: username and password

1. Turn on the computer

2. Open a browser

3. Type in the address bar: www.facebook.com

(Firefox is the example)

4. Facebook website homepage appears

PB: Pages 7

5. Next, add your Log in: username and password (log in example)

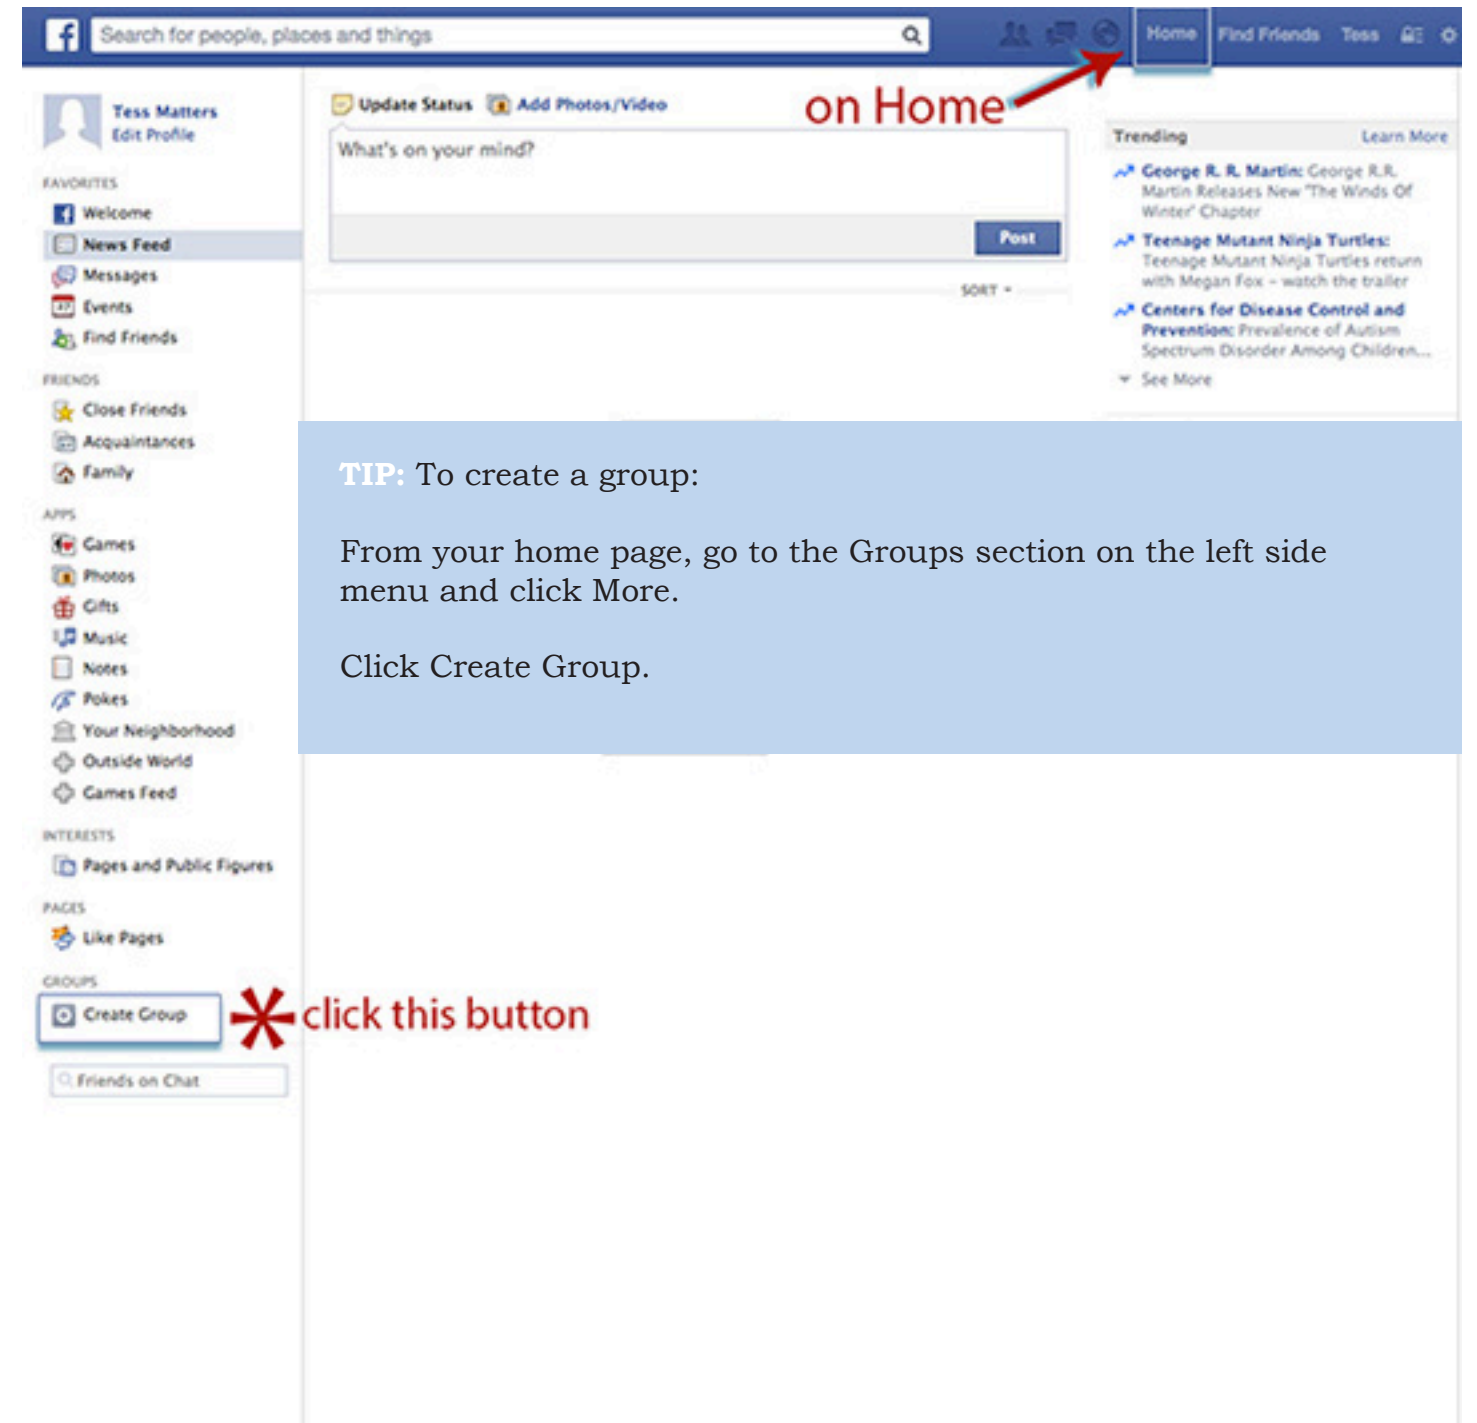

6. CREATING A NEW GROUP PAGE

PB: Pages 8

Opens to the home page or News Feed

HINT: Go to lower left side menu to CREATE GROUP

TIP: To create a group:

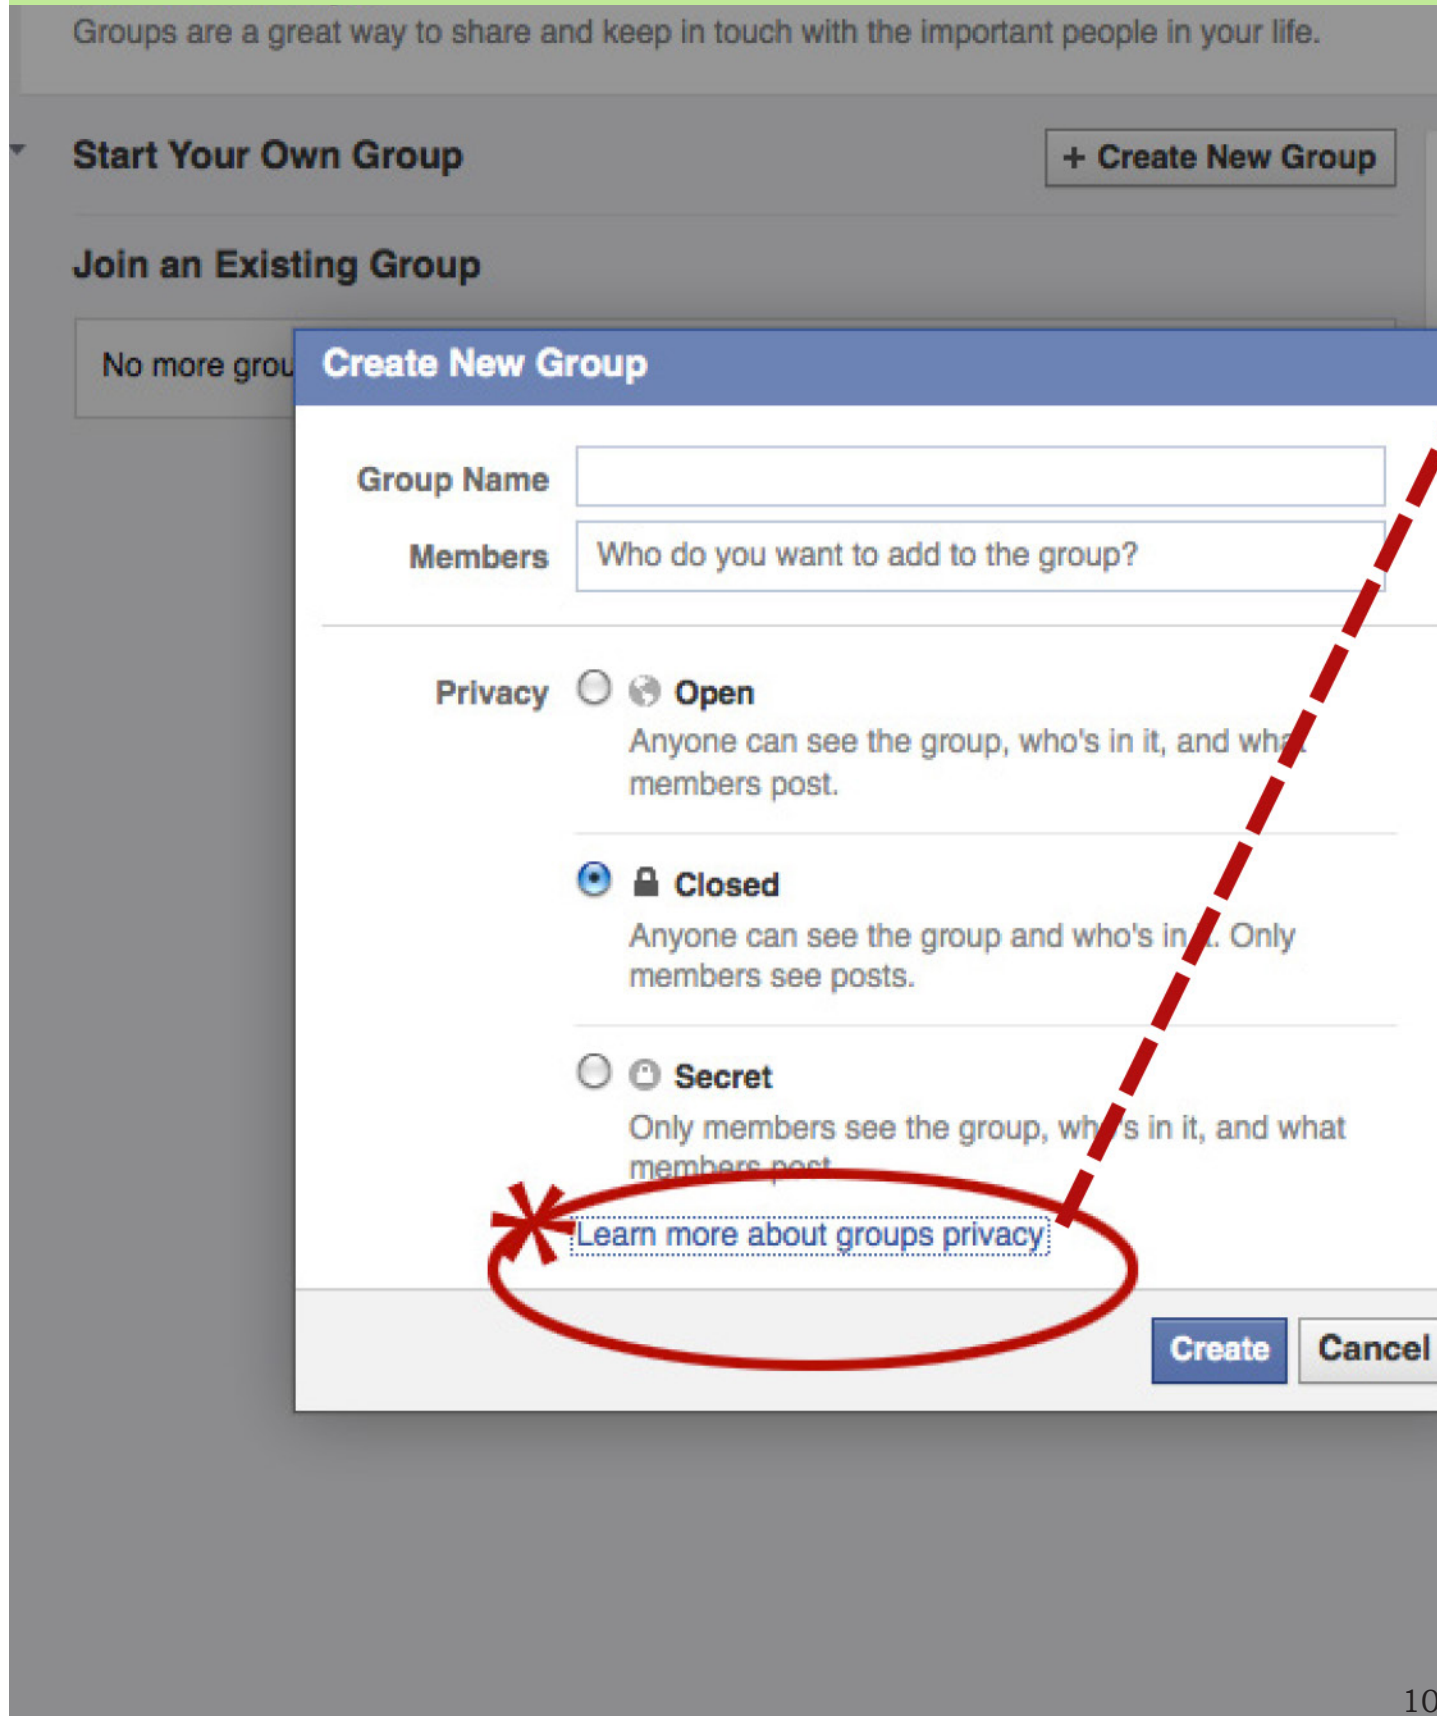

From your home page, go to the Groups section on the left side menu and click More.

Click Create Group.

7. Create New Group, the Dialog box: Check Secret group

PB: Pages 9

HINT: To learn more about Group types and options click on link or turn to in the participants booklet

HINT: We are selecting Secret Group settings

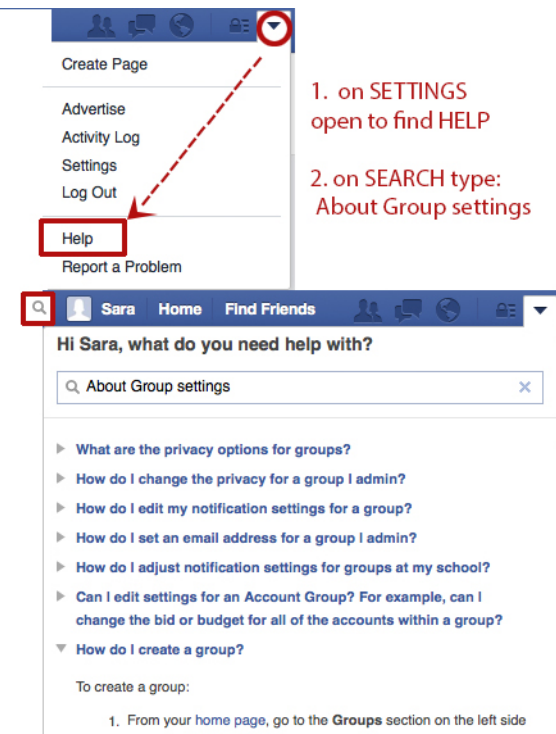

PB: Pages 10

What are the privacy options for groups?

There are three privacy options for groups: Open, Closed and Secret. The table below shows who can join these groups and what people can see about them.

	Open	Closed	Secret
Who can join?	Anyone can join or be added or invited by a member	Anyone can ask to join or be added or invited by a member	Anyone, but they have to be added or invited by a member
Who can see the group's name?	Anyone	Anyone	Current and former members
Who can see who's in the group?	Anyone	Anyone	Only members
Who can see the group description?	Anyone	Anyone	Current and former members
Who can see the group tags?	Anyone	Anyone	Current and former members
Who can see what members post in the group?	Anyone	Only members	Only members
Who can find the group in search?	Anyone	Anyone	Only members
Who can see stories about the group on Facebook (like in News Feed and search)?	Anyone	Anyone	Only members

Learn more about [joining groups](#). If you're an admin of a group, learn how to [change the privacy settings](#) depending on the size of your group.

TIP: Participants can learn more about GROUPS by using HELP then SEARCH

PB: Pages 11

8. Name your New Group [Your name Group

Create New Group

Group Name

Member to the group?

Please fill out this field.

Privacy Open

Anyone can see the group, who's in it, and what members post.

Closed

Anyone can see the group and who's in it. Only members see posts.

Secret

Only members see the group, who's in it, and what members post.

[Learn more about groups privacy](#)

HINT: Participants will add at least two members from their facebook friend list Instructional Designer can be invited at this time.

* Participants who are new to facebook pages or have not invited friends to their existing page will be unable to continue, they will need to add a friend request and await a confirmation reply before continuing.

Create New Group

9. Invite New Members to your Group

PB: Pages 12

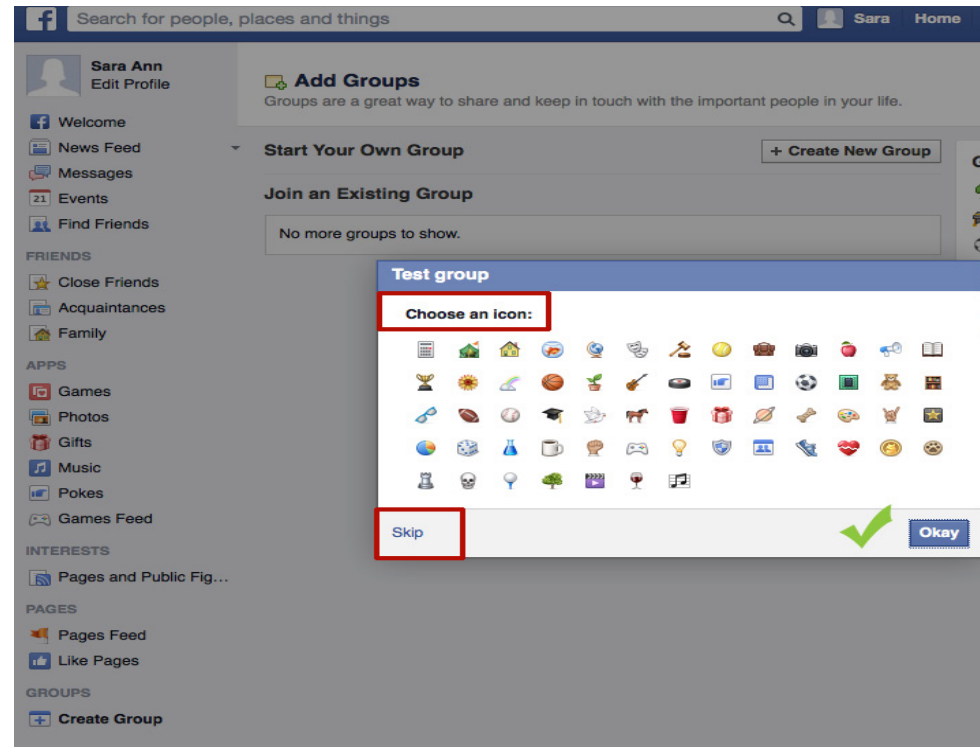

Group Name

Members

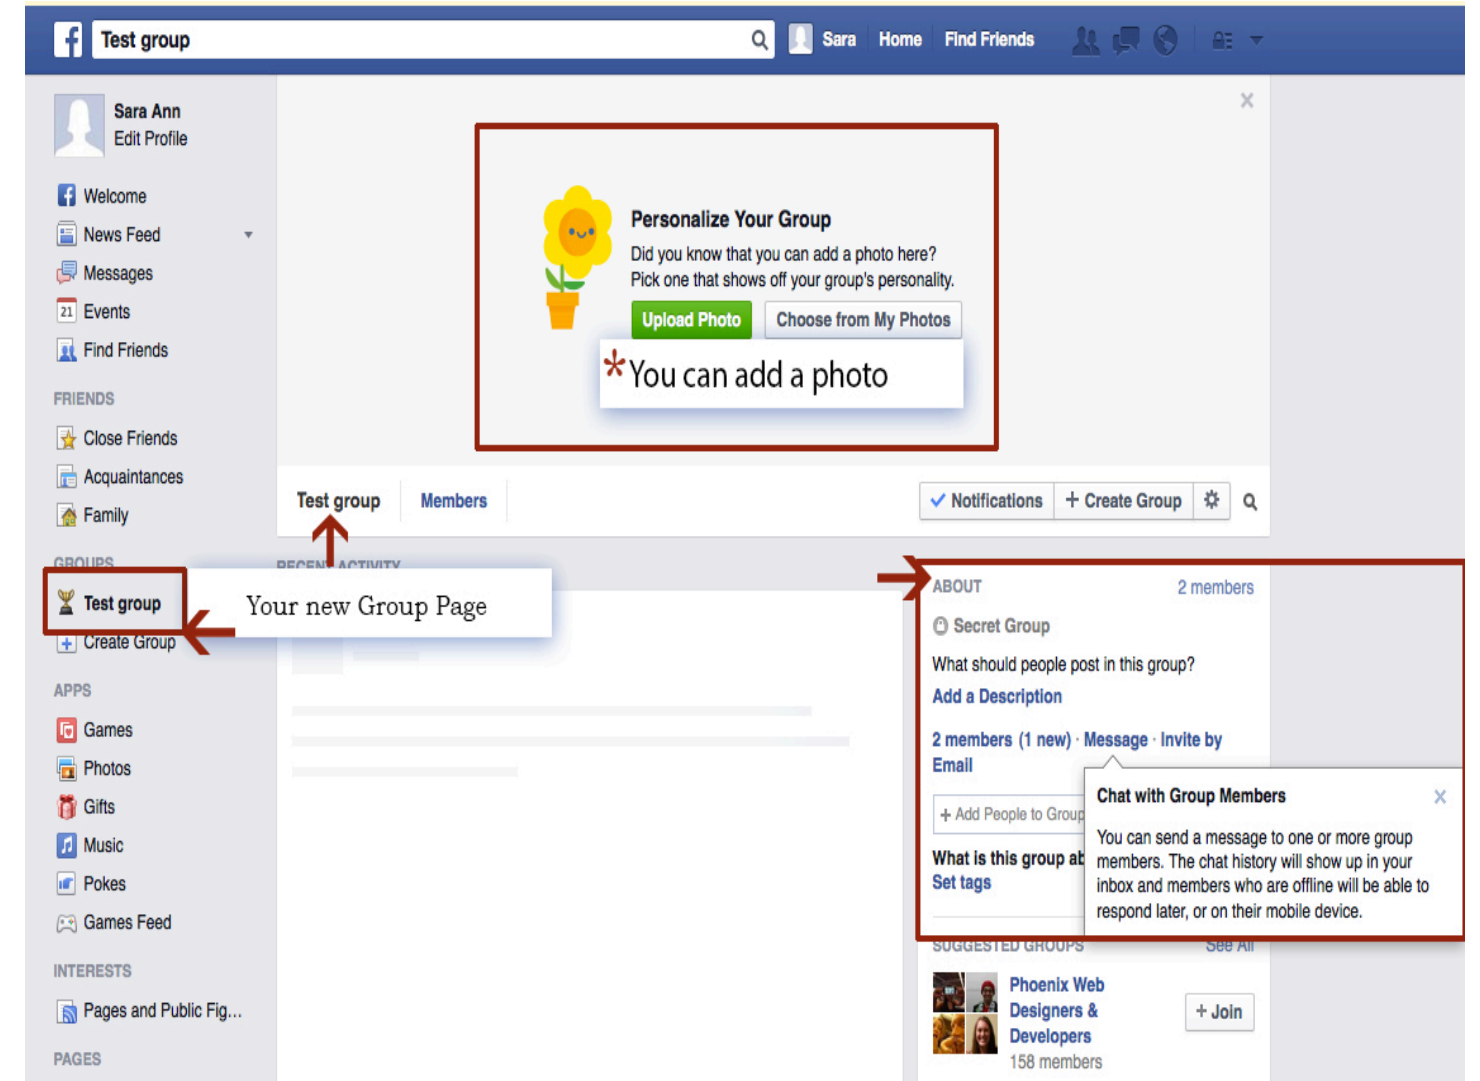

B

TIP: Add Letter of Name and Facebook page current friend list will appear in drop-down list

TIP: Selection of an Icon is optional. If the training is proceeding at a good pace then take time to implement this step otherwise suggest that the participants come back to this step at a later time and proceed with Group set-up.

10. Participants New Group Page will be identified with Group name and look something like this at the beginning (Page#8-9). At a later time participants may continue to Personalize your Group page. Next, we will select the About link located on the right below Notifications

11. The participants will add text by opening Add a Description Link

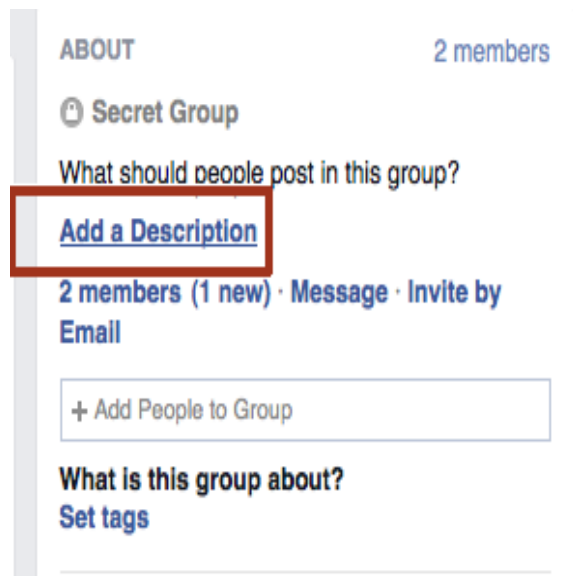

ABOUT THE SECRET GROUP Text:

Welcome to our New Secret Facebook Group!

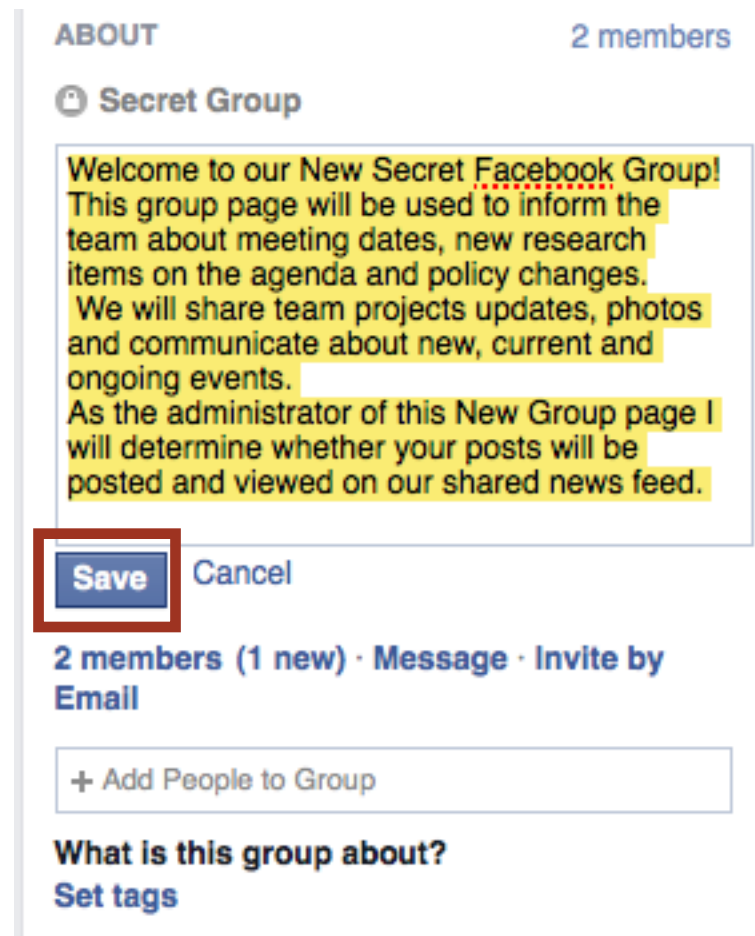

This group page will be used to inform the team about meeting dates, new research items on the agenda and policy changes. We will share team projects updates, photos and communicate about new, current and ongoing events. As the administrator of this New Group page I will determine whether your posts will be posted and viewed on our shared news feed.

Then SAVE

1. Open Add a Description link

2. Type in text to describe group

TIP: TAGS ARE LIKE KEYWORDS that person might type into the Search box

Admins can add tags to their group to help people understand what the group is about, and to help people search for groups by topics that they're interested in. Who can see a group's tags depends on the privacy setting of the group.

To add tags to your group:

From your group, click and select Edit Group Settings

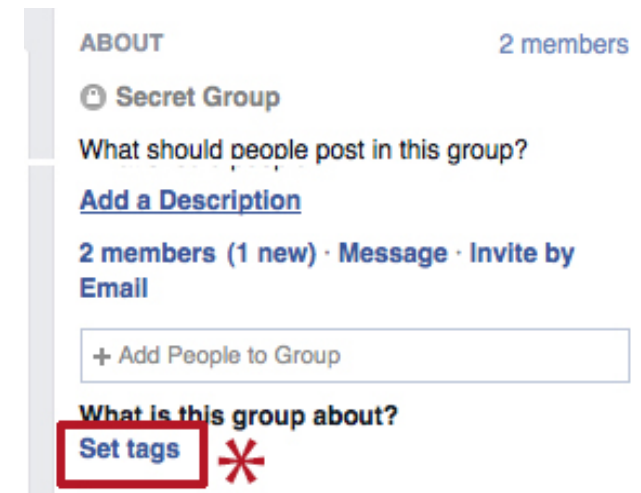

Under Tags, enter words that describe what your group is about (ex: soccer, music, travel) and then click the suggestions that appear in the dropdown

Click Save

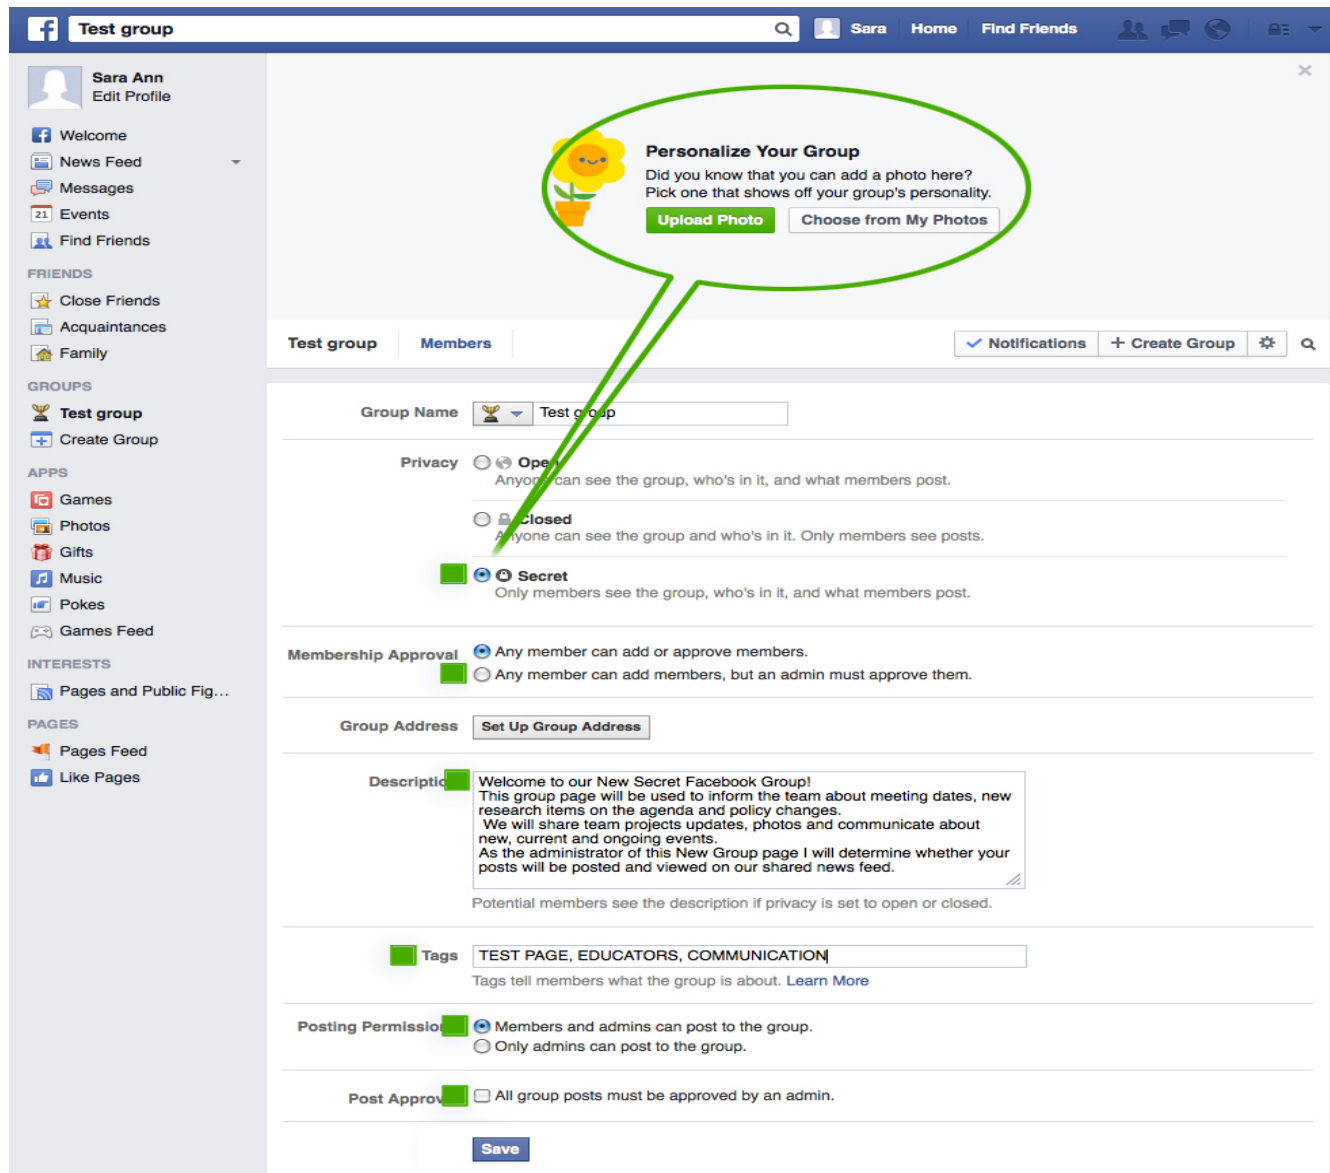

Note: You can add a maximum of 3 tags to your group.

12. Participants will select the What is the group about? and

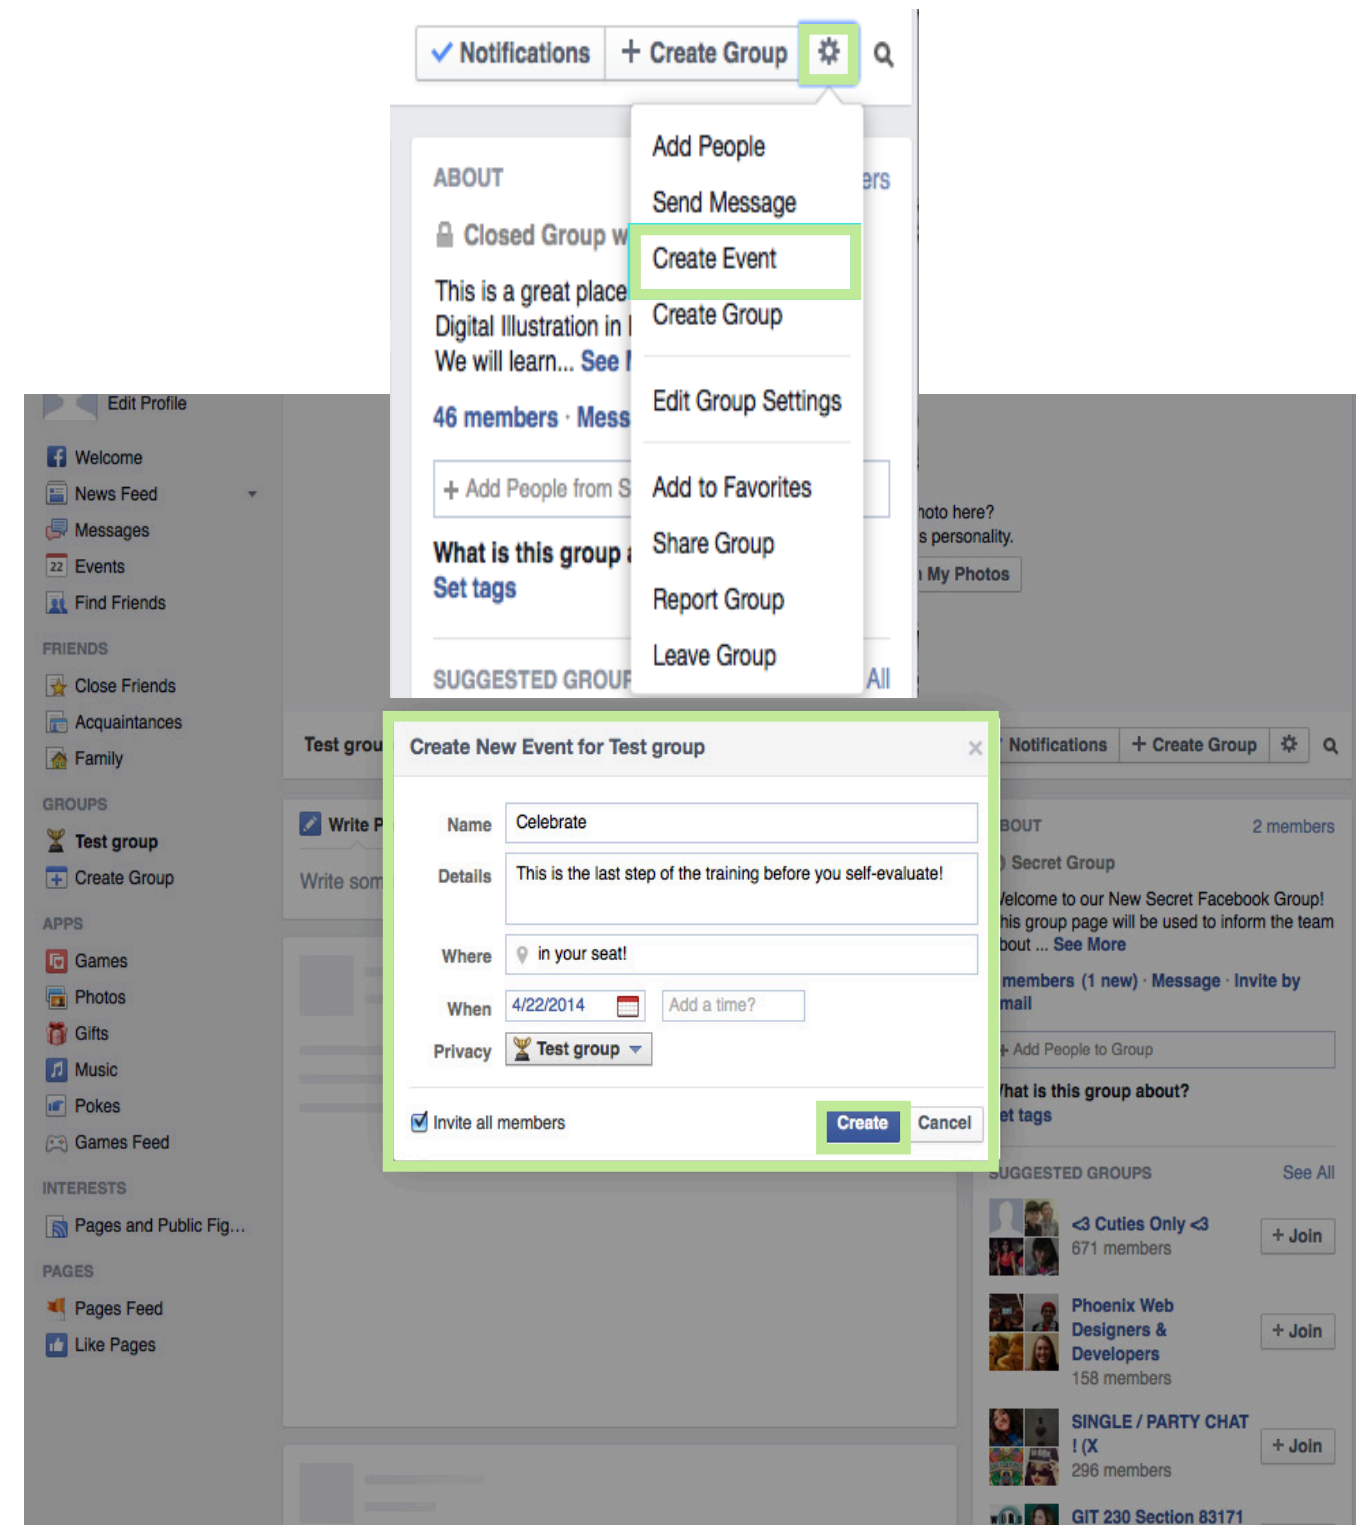

Click on SET TAGS located on the lower right side under Invite Members

13. Participants will SET TAGS to Personalize Group Page
Hit buttons and SAVE

14. Participants will create an Event then invite members of their group.
Located under the Settings Icon a drop-down menu reveals: Add People, Send Message
Create EVENT, Edit Group Settings, Add to Favorites, ...

Your Group Wall

PB: Page 17

Once you have created your Group page click the navigation buttons within the red boxes and learn how best to use your group page

The screenshot shows a Facebook Group page for 'Secret Facebook Group'. Red annotations include:

- A red asterisk on the 'Group Wall' navigation button.
- Red boxes around the 'Members', 'Events', 'Photos', and 'Files' navigation buttons, with arrows pointing to them from labels: 'about individuals', 'current or past events', 'photos placed on wall by group', and 'files on group page'.
- Red boxes around the 'Write Post', 'Add Photo / Video', 'Ask Question', and 'Add File' buttons.
- Red boxes around the 'About' section, with arrows pointing to 'friend request', 'notifications', 'your use of facebook', and 'privacy settings'.
- A red box around the 'new post here' text.
- A red box around the 'about the group' section.

PB: Pages 18

Additional Information
Enter email addresses and Click Invite by email
(Located on the right menu below About. See: # of Members>Message>Invite by Email)

The screenshot shows the 'Invite People to Group by Email' dialog box. A red arrow points to the 'Invite' button. Another red arrow points to the 'Invite by Email' link in the group's right-hand menu.

Conduct a Group Chat

The screenshot shows a Facebook Group Chat interface. It includes a title bar with 'Sara Home Find Friends' and a 'Group Chat' header. The main content area contains instructions on how to start a chat with members of a group, including a numbered list of steps and a note about adding people. At the bottom, there is a 'Was this answer helpful?' section with 'Yes' and 'No' buttons, and a 'See more help about groups' link.

Name: _____

1. Facebook Group pages can be customized
 - a. by the page administrator
 - b. by any member of the facebook group
 - c. by the technical staff at facebook.com

2. In your new Secret facebook group page any member can post any comment without administrators approval
 - a) True
 - b) False
 - c) Not applicable

3. What is the first step you take to login to your new facebook group
 - a) Enter username and password
 - b) Enter your email address
 - c) Enter your new facebook group name

4. Members of the new facebook group can post photos
 - a) Links to websites
 - b) Images and Videos
 - c) Screenshots
 - d) All of the above

 RESOURCE LINKS

Case studies that support the use and effectiveness of facebook groups and in turn support the goal statement of the training.
